

## **MY PVI**

MAKING THE MOST OF  
PRIVATE VOCAL INSTRUCTION

### **The Goal of a PVI**

- To help the singer develop vocal skills that will produce a free, open, relaxed, resonant, ringing sound.
- To encourage the singer to continue to grow vocally.

### **Words of Wisdom**

- “Everything that you were born with as a vocalist is still available. You only need a simple understanding of how your voice functions, an awareness of what is happening and a will to put it to use.”

### **Responsibilities of Singer**

- 1. Warm up before you arrive for PVI
- 2. Bring a recording device
- 3. Listen carefully and explore willingly
- 4. Ask questions
- 5. Know if you're confused you're about to learn something new.

### **Three Things to Remember**

As you listen, distinguish three things you think the singer should take away from the PVI.

- Breath or posture issue
- Phonation or Resonance issue
- Corrective exercises
